Last Updated Tuesday, 23 June 2009

Work has already commenced at the Lincolnshire Showground on the Rotary Stand (255) thanks to Rotarian Mel Booth and Rilmac Scaffolding Limited. The stand which is much larger than in previous years is located near to the Epic Centre and the main ring will be easily seen with its 9m tower and Rotary banners. District 1270 will profile its response to disaster relief worldwide including the £750,000 Flood Relief support given to the victims of the 2007 floods which affected so many families and communities within District 1270. International projects - Lincs with India and the Nepal Trust as well as Lifestraw and Shelterbox will also be featured. Rotarians with specialist knowledge of all these projects will be on hand to speak to visitors in more detail about Rotary's involvement with all these projects.
